DETAILED ACTION

Election/Restrictions

- 1) Applicant's election without traverse of species 1 in Paper No. 5 is acknowledged.
- 2) Claims 6, 21-22, 25-26, 32, 35-40, 44-46 and 52 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 5.
- 3) Applicant is advised to refer to section 809.02(a) of the MPEP for an explanation of the following election of sub-species presented below. There are a numerous number of sub-species claimed in the instant application. Examination of the claims in their entirety would create a burdensome search for the examiner.
- 3) This application contains claims directed to the following patentably distinct sub-species of the claimed invention:
 - Sub-species 1: Claim 2,
 - Sub-species 2: Claim 3,
 - Sub-species 3: Claim 4,
 - Sub-species 4: Claim 5,
 - Sub-species 5: Claim 7,
 - Sub-species 6: Claim 8,
 - Sub-species 7: Claim 9,

Sub-species 8: Claim 10,
Sub-species 9: Claim 11,
Sub-species 10: Claim 12,
Sub-species 11: Claim 13,
Sub-species 12: Claim 16, 19 and 20,
Sub-species 13: Claim 30,
Sub-species 14: Claim 31,
Sub-species 15: Claim 33,
Sub-species 16: Claims 41-43,
Sub-species 17: Claim 49,
Sub-species 18: Claim 50.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 14, 15, 17-18, 23-24, 27-29, 34, 47-48, 51 and 53 are generic to the elected species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 3683

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4) A telephone call was made to David Posz on June 4, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
